## Read the following passage:

## The Seven Ancient Wonders of the World

The ancient Greeks made a list of places that people should see. The list was named 'the Seven Wonders of the World'. Only one of the ancient wonders can be found today in Giza, which is in Egypt. This is the Great Pyramid of Giza. It is one of the three great pyramids built around 2500 B.C. The Hanging Gardens of Babylon are another ancient wonder. They are located on the banks of the River Euphrates. This area is near Baghdad in Iraq. A King built this garden for his wife.

The Statue of Zeus was built in Olympia, Greece in 457 B.C. This statue was built to honour the Greek God Zeus. The statue was as tall as a four-storey building! In addition to Zeus, the Greeks built another very big statue, to honour the Greek Sun God, Helios. This wonder is known as the Colossus of Rhodes, built around 550 B.C. The Temple of Artemis at Ephesus was considered the most beautiful structure on earth. Ephesus was an ancient city that was located in what is now Turkey. The Mausoleum at Halicarnassus was also constructed in Turkey. The only wonder built for practical use was the Pharos of Alexandria. This was a lighthouse off the coast of Egypt. It was once the tallest building in the world.

## Answer the following questions by choosing the correct option:

- Which of the following statements is NOT TRUE about the passage?
  - (1) Colossus of Rhodes was built to honour Helios.
  - (2) Pharos of Alexandria was a lighthouse.
  - (3) The Great Pyramid of Giza was destroyed.
  - (4) The Hanging Gardens of Babylon were built by a king for his wife.
- 2. Which of the Seven Ancient wonders of the world, was as tall as a four-storey building?
  - (1) The Great Pyramid of Giza
  - (2) The Statue of Zeus
  - (3) The Mausoleum of Halicarnassus
  - (4) The Colossus of Rhodes
